Which Rule Should You Remember?

You are playing your favourite game online and one of your friends starts to be unkind to you. They use bad language during the game and begin to call you names in the messages you send to each other afterwards. You are really upset and don't go on the website again, even though you don't want to stop playing because you're doing really well and getting high scores!

What should you do?

Who can you tell?

What can you do on a website if this happens?

The 'report abuse' button on a website allows children to report any suspicious individuals or threatening behavior directly to the police, quickly and easily. Avoid using any websites that **DO NOT** have this button.

Which Rule Should You Remember?

You have been playing your favorite online game for 6 months and have met a new player. You often arrange to be online at the same time and regularly message each other about your scores. You've become good friends.

Your online buddy says they live quite close and would like to meet to play a new game that they have. You've not got it yet and it's a brilliant one that you'd love to try out!

What do you say to your buddy?

Should you meet them to play the game?
