Message from the Headteacher

Thank you

Big thank you to Claire Harrison, an ex-parent, for her very kind donation of goodies for the staffroom, very much appreciated.

Key Workers

Our Key Worker families have been offered half term provision at St Mary's Primary School in Byfleet, as part of a shared schools response to supporting pupils over holidays. Many thanks to St Mary's Primary School for their support in providing this on behalf of WBJs and WBIS.

As we finish the first half of the Summer Term, I once again wish to reiterate a huge thank you to all of you for helping and supporting your children at home and regularly communicating with our staff. There have been some great efforts by all the children, working at a level that they feel comfortable with and this is down to your support.

After half term, if Year 6 return, the school will move into yet another different phase that we have not yet encountered and this is where we are managing both home learning and in school learning to a much greater level. Organising this has been, to say the least challenging. As we are breaking new ground with this, we will obviously update you as we progress through with any changes we have needed to carry out along the way.

We will obviously follow with interest the latest Government and Local Authority guidance on the reopening of schools on 1 June for Year 6.

In the meantime I wish you all a very relaxing, peaceful and possibly a bit more social half term.

Lesley Lawrence
